

# JOSH AND CARMEN LOVELACE

## MISSIONARIES TO CAMBODIA

Summer 2009

### Small things can make a BIG difference...

God loves using tiny, insignificant things in huge, unexpected ways: David's small stone killed the giant... Gideon's little army defeated the Midianites... a boy's sack lunch fed the multitude. We are seeing first-hand the way God can take small things and use them for His glory. Over the short 5 months we've been itinerating we have been amazed by God's faithfulness and the generosity of fellow believers. Every \$5 or \$10 really does help raise our budget and every random act of kindness (toys for Emma, gift baskets, etc) has truly lifted our spirits. Thank you!

The next big thing coming up on our calendar is Missionary Training (formerly known as School of Missions). Pray for us and all the other missionaries who will be coming to Springfield as we study, fellowship & brainstorm together! We're looking forward to this enriching time... but also know it will be very hectic as we continue traveling and itinerating on the weekends. It's good to know God will give us strength (Psalms 18:32). Blessings!
